## Ratings Information

**To assist the ratings Committee in assigning a handicap, please check the appropriate box or fill in the information. Remember all member boats will be rated, nearly half of the race schedule is open to all full members, no race fee required.**

Yachts racing in SCSC scheduled events will be assigned a PHRF handicap rating formulated from US Sailing Association rating information. Ratings assigned will be based upon nationwide PHRF member fleet ratings for that Yacht. All member fleet ratings are based upon Standard Boat Assumptions.\*

Yachts which are Non-Standard or do not have a PHRF rating will be rated according to the guidelines provided by USSA for rating a Custom or Unrated Yacht.

Yachts racing under incorrect handicaps are subject to disqualification.

**\*Standard Boat Assumptions:**

1. The Spinnaker pole length is equal to "J".
2. The Spinnaker maximum width is 180% of "J".
3. The Spinnaker maximum length is equal to .95 of the Jibstay length, i.e.,  $.95 \times \sqrt{I^2 + J^2}$
4. The genoa LP is between 150% and 155% of "J".
5. IOR Batten length restrictions are followed except in cases where the standard boat has full length Battens.
6. The Boat is in Racing condition.
7. The boat has a folding or feathering propeller, a two bladed solid propeller in aperture, or a retractable outboard motor.
8. The Hull or appendages are unmodified.

**A Yacht is non-standard if it does not conform to all items listed above, with the exception of item 6.**

Inboard   
  Outboard   
  Non-spinnaker   
  Roller Furling not specified by class rules  
 Fixed propeller not in aperture per Item 7

If your boat was manufactured in more than one version (i.e. inboard or outboard, tall mast, fixed keel, etc) which model is it? \_\_\_\_\_

If you do not conform to Item 4, what is your largest headsail? \_\_\_\_\_%

If you have any questions, contact Ratings Chair, Dave Brower at [captbrow39@q.com](mailto:captbrow39@q.com).
